Comments

“ I was about 13 when Robert's army unit was called back up to "take care" of the Cuban Missile Crisis. He was sent to Fort Polk (I think...it's been a long time ago)and on weekends, he would get a ride to some town (I forget which)south of the Metroplex.My parents would drive Loreta and Tony to meet Robert. I also remember Robert buying the second-hand mobile home and taking it to Louisiana so that his family could be back together.

“ When I was in college, Robert starting building a boat in his backyard. He wanted a picture of a helm to use as a model for his carpentry. So, we went to the UTA library together to do "research." After we found just the right model for his design,I remember his grin as we descended the stairs together.
