“ *The smile in the photo above reminds me of a picture I have of Mr Case dancing, and I mean really "rocking out" to the music during a party at Bluff 100, Yokohama back in '73. My thoughts and sympathies to his family.*

“ *I was privileged to work with Cliff on the Statfjord "A" project in Norway from 1976 to 1979. As Engineering Manager he had wide responsibilities, but was always cordial and helpful to less experienced staff like me, despite our sometimes "know it all" attitude! He helped make the project an amazing learning experience for us.
He will be be much missed by so many who worked with him.
Helen's and my sympathies are with Shirley and his loved ones.*
