“ Words can not express how much I loved my father, and what he meant to me, my sisters, and the whole family. I can say is that he was my springboard of knowledge on giving me the advice on being the best person that I could become. I know that he was very proud to see his baby become a teacher, graduate with his masters, but as well he never gave up on giving me a talk from time to time on making sure I did the right thing and learned from my mistakes. He was a man that his legacy will continue through his children and his grandchildren. I know that he really loved his soul mate of 42 years, and hope that I can match that when I have a family of my own. He will be truly missed, but his spirit is with us at all times.

“ My dad will always be the best! There are so many memories I don't know where to begin! He is the only dad I think that could have ever taken on such a big job like he took on when it came to raising me. If anyone knows me I was a rebel and eventually decided to change my ways. My dad taught me what was important all of my life from the beginning even until his end of being here with us. He is missed but still with me for the rest of my days!!
