“ Hi,

*My name is Lita. I had the pleasure of working with Larry for over four years. I can honestly say Larry was my mentor in several ways – me being from California he thought me some of the TX ways, from the culture, the history, the minor baseball leagues and the express ways. He was a mentor from a professional prospective his knowledge of the Tape environment helped to alleviate issues, assisted with putting new processes in place and helped to enhance others. With Larry’s wealth of knowledge from Tape processing he could have wrote book.*

*His commitment to our organization, his team and his peers was always outstanding I don’t think we could have asked for any more as he gave us 100 and 10 percent. Larry worked 3rd shift (Midnight shift), if you ever worked that shift I would say you are a unique individual. Not only because of the hours of the shift but you had to have the right persona. That was Larry unique and had the right qualities to work the shift. A man dedicated to the companies he worked for, dedicated to his team and dedicated to our environment. He was our gentle giant – he was tough but underneath he was caring, kind and sweet.*

*He cared about his team as they were more than just co-workers or peers to him they were his extended family. I like to believe even myself – I remember one day he was not feeling well and asked him to leave to go get some rest. Later than evening he called me and thanked me for showing concern about him and his health. I think because the call he me to me was unexpected; I felt he was sincere as I remembered after hanging up thinking to myself that was nice I must not be an outsider to him anymore....lol From then on our professional relationship changed – as we demonstrated the ability to genuinely care about each other. Like families even extended families do.*

*Larry – Thank you for sharing. Thank you for caring and Thank you for your dedication, but most important Thank you for being you.*

“ Larry and I worked together over 20 Plus years. We have been through alot together. I looked forward the month of Oct. to set up a team for our golf event. Larry was a very funny person loved his family and friends. Larry was a very hard working manager what ever task that was issued to him he did not rest until he mastered it. Larry was a go getter his shoes will be hard to replace. I will always rememeber Larry and keep him in my heart. When Larry mother passed away he give me a bedroom site of his mother that I will alway remember him by. To the family take one day at a time. God will see you through. Rest in peace my brother. “ I have worked with Larry for 14+ yrs, he was a friend,co-worker and my supervisor. Knowing that there are never any words that can be said to completely convey how extreme this loss is. I am sorry you lost your brother/uncle. He was truly one of the 'special' people in the world.

“ I was part of Larry's 3rd shift team at Bank of America,HP. I was Off the night he passed away. Larry was a hard working tropper. When there was a project to be done, he didn't mind working right along side of us.He was the kind of boss that truly cared about us. When I told by Mom that Larry had pasted away ,she said, that nice boss that called at the hospital and at the house after your had knee replacement surgery. I said , yes that boss. He really cared about us. I will always hold Larry dear to my heart. I will miss his kindness and silly jokes. My prayers go out to Kathy,James,Cynthia,Alex, and little six toes : ) >
