“ Linda,
Where do I start with the memories of your MOTHER Maxine. She was such a very kind lady and friend. Remembering the LIZARD she made me and was so proud of it. And how it scared me to death. The times you's ate at our home and the talks with Uncle Nick. Always will remember her purse and the walker. Her love for pumpkin pie and sweets. Her smile was like warm sunshine. She always worried about you and what would happen when she left this world, but she has to be proud of you for what you did for her. There is no more pain and she is now with the man she loves your DAD.
Love and Friendship,

“ Dear Linda,
I remember all the good times I had in your home. Maxine was a wonderful nurse, a good wife and a loving Mother. She enjoyed life and when she last visited me 8 years ago, she was a great help and good friend when I needed help with my friend Laura. Maxine was always glad to help other people and I shall always cherish our friendship.
Even though we live miles from each other the Miller Family will always remain an important part of my life.
