“ In the obituary it sounds like Dad and Kathrine had six children that is NOT the case, my dad was married to Gladys Delta Shelton for 38 years and then they divorced because of Kathrine. The six children were dad and Gladys' not Kathrine. And the two “ step children” Robert Shockley was Gladys boy who was 6 when dad and mom married and Bonnie was Kathrines daughter by her first marriage, which they divorced. My mother was Gladys Delta Bedunah Shelton and I miss her very much.

“ Did not know about this site until I just now looked it up. It would have been nice to have been told about it when dad passed. I can remember growing up dad down in the basement working on a project (he was a carpenter and was always building patio furniture) he would turn his Hank Williams records on and sing ♪♪ to them. Dad would come home from work and his back would be hurting and I would get the Ben Gay and rub it on his back. The Ben Gay would start to heat up and put him to sleep, it would relax him. When he would come in from Texas to visit he stayed with me. Then the years passed and dad needed air conditioning because of his breathing, I did not have air conditioning so he had to start staying at my cousins home. I missed him staying with us when he visited. I wished he would have gotten to stay longer when he did come up from Texas.

There are a lot of memories about my father some, good some bad, but one memory that stands out in my mind that I will hold forever in my heart is when dad would tell us everyday he loved us and give us a big hug. My dad was a big hugger!! That is what I will remember most about my daddy.

Love you dad, please tell mom hello and tell her I miss her so very much.

God hold you and keep you until we meet again dad.

Your baby girl, Tina Marie
