“ I am so sorry for the loss of your loving Husband and Father. Even though I didn't know him personally, I feel I knew the type of person he was through my conversations with Marty. If it's any consolation to the family, please remember that he is now pain free and in a much better place than you and I.

“ I always remember how excited we would get when grandpa Sub was coming in off the ship and how he was ALWAYS up and sitting at the kitchen table way before I got up in the mornings. I truly miss those times they were great times.
