“ I recall Woodie making me laugh. Picking on me cause I'm an Aggie. As well reading his Bible EVERY day, his walks around the parking lot at the bus barn, & him taking his naps.

The most of what I will NEVER forget. Is a time last spring when I lost someone very dear to me during our spring break. When we returned from spring break. I was just not my-self. Woodie noticed I was in tears. He came to me & told me to come & sit in his truck with him. As much as I did not want to be around anyone he would not let me be alone. He pulled out his bible & started to read, as I just sat there in tears looking out the window. Then he started reading the bible out loud to me.

After a few minutes, I started to feel a piecefull. Woodie said to me & I quote, " God is waiting for you to go to him in prayer.' , " I know you are hurting right now & I'm sorry for your loss. But God is right here for you. If that means you just read your bible, & pray for whatever it is you want. Kay you really need to turn to him now, so you can start to heal your heart."

Then Woodie took my hand & said a little prayer. A few days later Woodie asked if I was feeling better. I told him Yes! & I'm blessed to have such a friend that took the time to read to me & pray for me. That ment the world to me. I thank Woodie for doing that. If it wasn't for Woodie doing that I know in my heart I would have been an old sour puss.

I miss Woodie a great deal, & God blessed anyone that knew Woodie. I know I'm blessed to have known, & spent the time with such a dear man. I even started going back to church on a regular bases & reading my bible more & praying since this all happened. My daughter Amanda, knew Woodie as well. He was not her bus driver, but Woodie & I worked together.

When she saw Woodies picture in the paper. Amanda started to cry. I put my arms around her & said a little prayer. My daughter Amanda wants the family to know he was a christian man, & very kind to her. She said she will always remember his laugh, his smile, & she always looked foward everyday to seeing Woodie when going to the bus barn.

We will always remember & love him very much. Woodie was

always to my daughter & I was like a family member. We pray that the rest of the family will turn to God & pray for piece. I would like to believe that Woodie is watching over all of us as our gaurdening angle. He left this world the way he wanted to & I know God will take great care of him.

*If the family needs anything please let us know. God Bless you all!!
You ALL are in our prayers.*
